Tires and Wires

The story of electric trolley coaches serving sixteen Canadian cities

Tom Schwarzkopf's book tells all about these efficient trolley coach lines that ran in Halifax, Montreal, Ottawa, Cornwall, Toronto, Hamilton, Kitchener, Windsor, Port Arthur-Fort William, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, and are still operating in Vancouver. Several other cities contemplated or trialed them, and all are featured in this omnibus volume.

There are **more than 200 superb photos** of trolley coaches, most in operation – **with 54 in full colour** -- and all with informative captions. Spectacular cover illustrations are in full colour. Its **272 pages** include a bibliography and an index.

The book contains **22 overhead wire maps** and an extensive series of appendices, including trolley coach vehicle rosters with illustrations, along with a listing of preserved equipment. There's a chapter for each city's trolley coach system, a history of the trolley coach in Canada and information on all nine manufacturers.

The 8"x10.5" book is co-published by the Canadian Transit Heritage Foundation and Railfare*DC Books, which has very high standards for producing informative and interesting historical Canadian railway and transit system publications.

Don't miss your opportunity to own this historic book.

This new volume will be a valuable entry in the library of every transit and Canadiana enthusiast. With its very limited print run, *Tires and Wires* is sure to become a rare collector's item.

Thank you for your interest and support.
